### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: After an updated search, the previously relied upon European Patent of Texas Instruments Inc. remains the closest prior art of record. Of the claims previously rejected as unpatentable over the European Patent, applicant has amended the independent claims to recite that the plurality of light sources are linear light sources which each have a longitudinal surface from which light is emitted (as shown in Figure 1A of the present application). The linear light sources (waveguides **80**) in the reference clearly cannot meet this limitation and there is no reason why a person of ordinary skill in the art would find it obvious to modify the light sources of the reference. The rejection is thus withdrawn and claims 1-41 herein are allowed. Claims 42-45 remain allowable for the reasons set forth in the previous Office action.

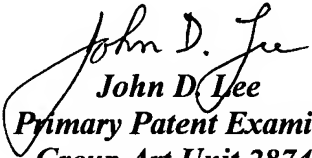

Applicant's correction of all informalities is noted and appreciated. With respect to the Israeli priority document, after a careful scrutiny of all the papers in the present application, it appears that a copy of the certified copy of the Israeli application was, indeed, properly forwarded from the International Bureau. There is no issue, therefore, regarding applicant's entitlement to the priority date of May 3, 2000.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### DISCUSSION OF THE CITED PRIOR ART

All of the prior art documents submitted by applicant in the Second Supplementary Information Disclosure Statement filed on April 1, 2004, have been considered and made of record. Note the attached initialed copy of form PTO-1449. The cited U.S. Patents have all been reviewed and found to have no negative impact on the patentability of claims 1-45 herein. The patentably distinguishing features of the claims, discussed above and in the previous Office action, are neither disclosed nor rendered obvious by any of these cited U.S. Patents.

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the Technology Center 2800 receptionist at telephone number (571) 272-1562, to the technical support staff supervisor (Team 8) at telephone number (571) 272-1564, or to the Technology Center 2800 Customer Service Office at telephone number (571) 272-1626.
